# NJDOL Issues Stop-Work Order to Robbinsville Contractor on Middlesex Co. Elementary School Project

## FOR IMMEDIATE RELEASE

August 17, 2023

**TRENTON** – Investigators from the New Jersey Department of Labor and Workforce Development’s (NJDOL) Division of Wage and Hour and Contract Compliance issued the following stop-work order on August 15, 2023:

**Employer:** Custom Siding LLC of Robbinsville, N.J. (subcontractor)

**Work Location:** John P. Faber School in Dunellen, N.J.

**Nature of Work:** Classroom addition

**Details:** NJDOL’s Division Wage and Hour and Contract Compliance found the subcontractor was not a registered public works contractor while conducting a routine site inspection as part of a broader inspection initiative covering public works projects at schools.

**Violations:** Failure to Register

**Monetary Assessments:** Not yet assessed.

NJDOL has issued 140 stop-work orders since these powers were expanded in July 2019.

Stop-work orders are initiated by NJDOL to halt work being performed in a manner that exploits workers, or is otherwise noncompliant with state laws and regulations. An employer may appeal a stop-work order, in which case NJDOL has seven days to schedule a hearing.

NJDOL continues to monitor locations where stop-work orders have been issued, and can assess civil penalties of \$5,000 per day against an employer conducting business in violation of the order. The stop-work order may be lifted if and when any remaining back wages and penalties have been paid and all related issues have been resolved.

NJDOL and its partners at the New Jersey Department of Community Affairs and the New Jersey Department of Education [sent direct letters](#) reminding local governments and boards of education of their responsibilities under the [New Jersey Prevailing Wage Act](#).

NJDOL maintains a [record of registered public works contractors](#) that should be consulted by any government agency or entity before hiring for a public works project. Doing so can help avoid unnecessary project delays and extra costs to businesses, schools, government entities and taxpayers. The list contains thousands of businesses, and is searchable by name, address, registration date, and certificate number.

In addition, registered public works contractors are required to participate in Registered Apprenticeship programs, which ensures that public funds contribute to the training of New Jersey workers in the construction sector.
